

# Our Professional Team is Growing

## We Continue to Support You 24 Hours a Day, 7 Days a Week.

Dr. Carrie Palm earned her reputation — as well as the “Bedside Manner Award” — with her consummate medical skills and heart-warming compassion for her patients and their owners. With a specialization in Small Animal Internal Medicine from the University of Pennsylvania, Dr. Palm achieved her Doctor of Veterinary Medicine from University of California at Davis.

**VMSG** is pleased to have her as a part of our team. We know she is happy to return to her Southern California active lifestyle — stowing her gear in the back of her pickup truck for a hiking, biking or aquatic adventure.
